EXPLANATORY NOTES.*

FINANCIAL ACCOUNTS.

The classifications are based on the standard form of accounts for Tramways adopted by Local Authorities and include the amendments to that Form recommended in May, 1923, by the Committee appointed by the Minister of Transport to suggest such instructions as may be necessary to ensure that the accounts furnished for the purpose of the Tramways Annual Return are compiled on a uniform basis.

CAPITAL RECEIPTS.

Capital authorised, paid up and redeemed at the close of the financial year in respect of the whole Undertaking.

NET CAPITAL LIABILITY.

Capital paid up less Capital redeemed and/or less funds set aside for redemption of capital.

CAPITAL EXPENDITURE.

In the case of Local Authorities where loans have been raised for renewals, the capital expenditure shown is the cost of existing works, plus the superseded capital still to be redeemed. Expenditure on power stations includes land, buildings, plant, &c. Expenditure on other businesses is shewn only in the case of Local Authorities.

REVENUE ACCOUNT.

INCOME.

Passengers. Includes income from season and contract tickets and special hire, and the amount collected from passengers by the operating undertaking in through running over other systems.

Through Running. Amounts received from other undertakings for traffic receipts from through running over own system are added, and corresponding amounts paid to other undertakings are deducted.

Advertising on Cars and Miscellaneous. Includes advertising on cars less expenses, net rents accruing from property the cost of which has been included in expenditure on Tramways. Sales of unclaimed property, transfers fees, &c.

EXPENDITURE.

The classification of revenue expenditure follows that of the Capital Account and provides for the appropriation of all expenditure chargeable to Revenue Account. The detailed classification as agreed and recommended for adoption is set out in the report of the Committee.

Power expenses when generated by the undertaking are exclusive of interest and redemption of debt charges but inclusive of repairs to power stations.

Through Running. Amounts paid to other undertakings for working expenses of through running over own system are added and corresponding amounts received from other undertakings deducted.

NET REVENUE AND APPROPRIATION ACCOUNT.

Other Income. Includes Bank Interest and Interest on Investments applicable to Tramways Revenue Account and amounts received from other undertakings for Interest and Debt Charges on Tramways Capital Assets.

Other Businesses. Amounts transferred from or to the Tramways account in respect of other businesses, which, under statutory powers, are deemed to form part of the Tramways Undertaking. This applies generally to Local Authorities, but not to Companies.

Joint Undertakings. Amount derived from Tramways Income available for Interest and Dividends, Debt Redemption, Reserves and Income Tax. Limited to Companies whose Net Income from Tramways cannot be allocated specifically to those heads.

Reserve, Renewal and Depreciation Funds. Includes all Tramways Reserve Funds, but excludes Funds for Redemption of Capital. In the case of many Companies the Reserve Funds have been provided for other businesses besides Tramways and the only figure useful for this publication is the amount charged in the year to the Funds of the Companies for Tramways Renewals.

* These notes are set out in fuller detail in Appendix B.3 to the "Report of the Committee appointed to consider the form of the Return relating to Tramways and Trackless Trolley Undertakings," dated May 31st 1923, published as a Non-Parliamentary publication.

STATISTICAL RETURNS.

MILEAGE.—Mileage authorised, open for traffic, and worked, at the close of the financial year.

CARS.—Analysis of numbers, and particulars of seating capacity, at the close of the financial year.

PASSENGERS CARRIED.—Number of single journeys paid for during the period covered by the return, e.g. a return ticket has been taken to represent two passengers, a workman's weekly ticket available for 12 single journeys to represent 12 passengers and season tickets have been included on the basis of an estimated number of journeys taken. (See note below in reference to Through Running.)

CAR MILES RUN.—Total number of miles run during the time cars have been engaged in service work. Trailer miles are counted as Car Miles, e.g. a two-car unit running five miles equals ten car miles. (See note below in reference to Through Running.)

CAR HOURS WORKED.—Total number of hours each car has been out of Depot in charge of the Traffic Department for Service work. Departmental running (trial trips, breakdown work, &c.) is not included. (See following note in reference to Through Running.)

THROUGH RUNNING.—In cases where Through Running is in operation, i.e. where a line is operated jointly by two or more undertakings, two figures are given in respect of—

Passengers carried.

Car Miles run.

Car Hours worked.

The figures in Roman type represent the result of operation of the cars owned by the Undertaking and those in italics the working over the lines of the Undertaking by all cars irrespective of ownership.

CAR MILES PER CAR HOUR.—Car Miles (excluding Trailer Miles) run over the lines of the Undertaking divided by the corresponding car hours.

ELECTRICITY, CONSUMPTION.—The total traction units consumed includes all units (generated and/or purchased) used for car lighting and in running the Car Mileage.

The traction units per car mile figure is obtained by dividing the total number of traction units by the corresponding Car Miles.

AVERAGE FARE PAID PER PASSENGER JOURNEY.—Total Income from "Traffic-Passengers" divided by the number of Passengers carried in the cars of the Undertakings.

AVERAGE FARE PER MILE.—Total amount chargeable for all the fare stages divided by the aggregate mileage of such stages.

AVERAGE TRAFFIC INCOME PER CAR MILE AND AVERAGE TRAFFIC INCOME PER ROUTE MILE.—Total Income from Traffic divided by the Car Miles run over the systems and the Route Mileage of the Undertakings respectively.

AVERAGE WORKING EXPENDITURE PER CAR MILE.—Total Working Expenditure divided by the Car Miles run over the lines of the Undertaking.

OPERATING RATIO.—Total Working Expenditure multiplied by 100 and divided by Total Income.
